#### **REPAIRS**

Removed all the hoses from the header adaptor. Removed the adaptor to header locking pins then removed the adaptor from the header. Drained the oil from the adaptor and removed the filter. Fitted a new filter and filled the oil. Removed the centre draper belt and repaired the draper deck. Refitted the centre draper belt with new joiner bolts and nuts. Removed the cover from the feed drum drive chain. Removed the chain and fitted a new one. Refitted the chain cover. Removed the cover from the gear train LH side, found the top drive sprocket locating screws were broken. Drilled the broken screws out and installed new ones. Refitted the cover and filled with new oil. Found the rubber mounts at the header connector were worn. Removed the mounts and fitted new ones. Welded up the cracks in the steel covers for the rubber mounts. Welded up cracks in the header mainframe. Refitted the adaptor into the header and reconnected hoses. Wee Waa Service Invoice # 2253753, Cost \$ 7,411 + GST.
